

Hawaii Islands 1:1,176,500 Visitors Map, waterproof FRANKO This map is waterproof and rip-proof, printed on plastic paper extremely durable in tropical conditions of Hawaii. It is double-sided to provide the best balance between a good scale and a convenient sheet size (size 53 x 36 cm 14 x 21) with topographic and tourist information. SIDE ONE provides a beautiful full view of the Hawaiian Islands chain, including the four main islands, Oahu, Kauai, Maui and Hawaii (the Big Island), plus the other two main islands, Lanai and Molokai, and the uninhabited island of Kahoolawe, and the forbidden island of Niihau. The beautiful islands are shown in green shaded relief against a fabulous series of descending shades of ocean blue as the waters around the Hawaiian Islands descend to over 3 miles deep. Side 1 of the map also defines the basics of each of the islands of Niihau, Kauai, Oahu, Molokai, Lanai, Maui, Kahoolawe and the Big Island with a description of each islands facts, such as area and population, just as an atlas of the Hawaiian Islands might read. It also shows over 80 species of Hawaiian fish and other reef creatures. For Hawaiian Islands cruise ship tourists, the map shows the relationship and distance between the islands ports o call. SIDE TWO is the real key to this maps information - it provides the essential details of Kauai, Oahu and Maui at 1:333,000 and the Big Island at 1:727,000. These details capture the essence of each of the four main Hawaiian Islands with descriptions of what there is to see and do on each of the islands. Topography is presented by bold hill shading with names of mountain ranges and peaks, elevation is shown in both metres and feet. More closely are defined the details of the cruise ship ports of call, including Honolulu on Oahu, Hilo and Kona on the Big Island, Lahaina and Kahului on Maui, and Lihue (Nawiliwili Harbor) on Kauai.

Into Geography: Bk. 2, Between World Wars: FDR and the Age of Isolationism, Measurement of Stress, Trauma, and Adaptation, Evolved Cellular Network Planning and Optimization for UMTS and LTE, Operating Grants for Nonprofit Organizations 2002,
