In 1775, the newly created American Congress took the first step in the formation of what, some two centuries later, would become the largest and greatest navy in the world. From those days of John Paul Jones and his associates who dared to challenge Britain's Royal Navy, the mightiest navy the world had ever seen, America's Continental Navy has grown, along with the country, to become the world's foremost naval force. Today, the United States Navy is a highly sophisticated armed force that is capable of projecting military power to all corners of the world. This in-depth volume describes the battles, the ships and aircraft, and the great naval captains of American history who shaped it into the premiere seaborne military force in the world today.
