

The earliest battle in history which can be reconstructed in detail, Qadesh pitted the two great warriors of the age against each other, Muwatallish of Hatti and the great warrior-Pharaoh Rameses II. With the Hittites gaining the initial advantage, all seemed lost until Rameses himself led his personal followers into the fray. However, in spite of the appearance of Egyptian reinforcements, the bravery of the pharaoh and the tactically superior showing of the Egyptian chariotry, the dislocation of his army frustrated the Pharaohs wider strategic aspirations. Mark Healy recounts the course of this key battle, which could so easily have gone either way. Perhaps history's first great battle (and certainly the first for which there is detailed documentary evidence) it pitted the two great warriors of the age against each other, Muwatallish of Hatti and the great warrior-Pharaoh Rameses II. Egypt's revival under the New Kingdom pharaohs was bound to bring her into conflict with her neighbour and in the event this key battle could have gone either way. With the Hittites gaining the initial advantage by surprising the Egyptians all seemed lost until Rameses himself led his personal followers into the fray throwing back the Hittite chariots. However, in spite of the appearance of Egyptian reinforcements, the bravery of the pharaoh and the tactically superior showing of the Egyptian chariotry, the dislocation of his army dashed the Pharaohs wider strategic aspirations. In spite of their success in stopping the Hittites destroying their camp at Amun and killing their Pharaoh, the Egyptians are considered to have lost the battle of Qadesh. In this Osprey Campaign title Mark Healy recounts the course of the battle and explains its effect on the political situation of the ancient world. His detailed text is superbly backed up by well chosen illustrations and photographs, including the pictorial reliefs on Egyptian temple walls and photographs of the battlefield as it is today.
