

Chaianne Lewis is determined to make a better life for her and her daughter despite the bleak childhood she had to endure. Her tumultuous relationship with her current boyfriend, Dominic, has given her the tools she needs to turn her unwelcomed hobby of catching him cheating, into a lucrative hustle. Armed with the skills of a natural spy, Chaianne begins taking on small jobs for her campus friends. Right out of college she starts her own Private Investigation firm which proves to be more than she bargained for, in more ways than one. Chaianne soon discovers that her niche for spying may actually do more harm than good. Now instead of tailing others, it's her own back she needs to be watching. When death happens upon her doorstep, she's burdened with the realization that the one person she thought she could love forever is the one standing behind the trigger. Will her heart forgive that easy or will the reality of the situation prevent her from loving again? Chaianne is left to believe that sometimes that's just the way love is, or is it?
